

THE DARK RIDER™

THE DARK RIDER™ is an integrated ride and show system that sends guests soaring and swaying through vibrant show scenes and provides operators a complete entertainment solution.

Created by The Producers Group and powered by Extreme Engineering, **THE DARK RIDER™** combines an elevated ride track system with modular columns housing lighting, audio, and control equipment. Adjustable outlet locations, alternate stack orders, and the easy addition of individual components only scratch the surface of the limitless customization potential of **THE DARK RIDER™**.

From interchangeable themes and to variable installation scopes, **THE DARK RIDER™** simultaneously elevates and simplifies the attraction development process for a new generation of dark ride experiences.

黑暗骑乘者™是一个集成的骑乘演出系统，让游客在充满活力的演出场景中翱翔与摇摆，并且为运营商提供完整的游乐方案。

由精英制作人公司 (TPG) 创建，由极限工程公司 (Extreme Engineering) 提供支持，**黑暗骑乘者™**结合了高架骑乘轨道系统与安装在模块化立柱中的灯光、音频和控制设备。可调的插口位置、可替换的堆叠顺序以及可轻松添加单个组件，这仅仅是**黑暗骑乘者™**无限定制潜力的表面皮毛而已。

从可互换的主题到可变的安装范围，**黑暗骑乘者™**无疑给新一代黑暗骑乘简化了游乐项目开发过程，同时又提升了黑暗骑乘的体验。
